

Appliqué a heart every day...at the end of the year you have a special quilt...

365 little hearts...every day a bit of love

77" x 77"

365 hearts together

14 on a row

14 rows high

### Materials

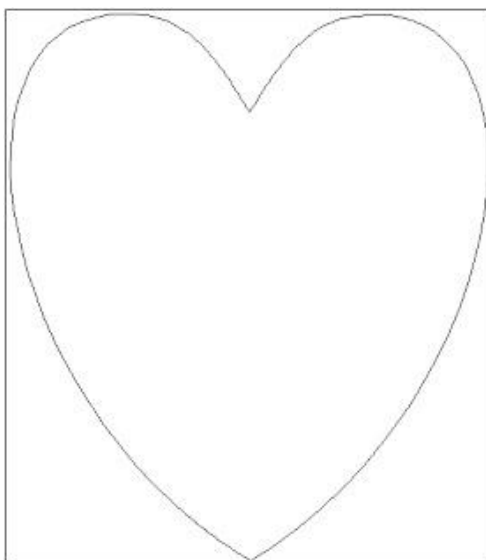

*fabrics are 44"-wide*

- 4 1/2 yard of fabric for the background squares
- 3/4 yard of fabric for the triangles
- a lot of scraps for the hearts
- 1 yard of fabric for the border
- 3/4 yard of fabric for the binding
- 5 yard of fabric for the backing
- 82" x 82" of batting

### Step-by-step

including 1/4" seam allowances

- cut 365 squares 4" x 4" of the background fabric
- cut 13 squares 6 1/4" x 6 1/4" of the triangle fabric. Cut each square two times diagonally to get 52 triangles
- cut 2 squares 3 3/8" x 3 3/8" of the triangle fabric. Cut each square once diagonally to get 4 triangles

*Template of the little heart*

*The size of the rectangle is 2 3/4" x 2 3/8"*

*If you print this page you have to check this size ...The template is without seam allowances*

Use your template to draw your hearts and use your favorite method to appliqué.

Start in the upper left corner and make diagonal rows. There are 14 hearts on a horizontal row with a total of 14 rows (and 13 rows of 13 hearts between them)

Have a lot of fun.

If you like to work with inches? All the measurements are on a separate pdf.

At the Sweet Hearts blog you will find more information about this project.

Colorful inspiration, but also hearts in different techniques.
